Writing

I would like to tell you about sport and how important it is to practise a sport regularly when you are in your teens. To begin with, to keep fit and healthy is an important part of human beings, especially nowadays. We live in the world of technologies. We don't need to work hard that's why we spend more time watching T.V. or The Internet.

Some people think if you want to be successful you should ^{take} care about your body and health. You will feel more confident and happy. And I agree with this point. But on the other hand, there are some people that to do sport and keep a diet is just a waste of time. But I think they are just a little bit lazy.

For instance, ^{our} social life also depends of our way of life. If you feel good people notice it. You stand less tense. ~~You have more friends.~~ By the way, sport helps us to make new friends and be more close to your family.

As for me, I like sport. And I try to eat healthy food. It helps me to get more energy and keep fit. It literally makes me happy and glorious. When you are a teenager you should be serious about your health. So am I. ~~Doing sports is~~ In conclusion I would like to say that fitness and health is an important part of our life. If you can take care about yourself means you can't take care about your family and friends. And never forget: an apple a day keeps a doctor away.
